

Hello, my name is Ricardo Davis III and I'm a baking and pastry student at HACC and I'm about to share you my experience at HACC.

What I love about my program is because I make variety of things like bread, pizza, cookies, cakes, etc. and I love making people happy, which makes me happy.

So after I graduate I will continue on as a pastry chef, own a food truck and raise a family.

My challenges that I have faced before is becoming adult. I'm 20 currently and I have realized that I'm about to graduate and this is my first achievement as an adult and I can't wait to continue on with my career.

HACC changed my life. Without HACC I wouldn't be the person that I am today.

I am self-confident, good learner and sociable and I have all of that from HACC, which I appreciate a job, classes, clubs, everything that they provide and I'm really am happy that who I am today because of them.

Thank you HACC, I really appreciate, appreciate what you have done with for me. Thank you.
